

Update:
January 24, 2026.

This project is having an overhaul, and this file will soon be outdated.

All files and downloads will soon be available at

<https://HatsuneMiku.download/>

Check back soon!

The original eRdk NEON before the overhaul is below:

Online Installers

- A.I. VOICE Voice Database Installer

Archive CRACK POST

- https://www.reddit.com/r/VocaTorrent/comments/1gk71kv_ (by blackyu)
-

INSTRUCTIONS TO INSTALL THE CRACK

1. ENSURE AI VOICE 2 IS CLOSED.
2. DELETE ALL LOCAL PRODUCT LICENSE FILES (*.V2C) BEFORE INSTALLING THE CRACK (SEE SECTION ABOVE).
3. IN THE AI VOICE FOLDER, MAKE A BACKUP OF THE FILE AI.FRAMEWORK.LICENSE.DLL, THEN REPLACE IT WITH THE NEW DLL FILE

BELOW.

4. LAUNCH AI VOICE 2. FIRST STARTUP MAY TAKE SOME TIME, AS THE PROGRAM HAS TO REGENERATE ALL THE V2C FILES.
5. ALL YOUR INSTALLED VBS WILL BE ACTIVATED WITH PERPETUAL LICENSES.
6. (OPTIONAL) CELEBRATE.

INSTRUCTIONS TO UNINSTALL THE CRACK

1. ENSURE AI VOICE 2 IS CLOSED.
2. RESTORE YOUR BACKUP OF AI.FRAMEWORK.LICENSE.DLL WHICH YOU DEFINITELY DID, RIGHT?
3. DELETE ALL LOCAL PRODUCT LICENSE FILES (SEE TWO SECTIONS ABOVE).
4. LAUNCH AI VOICE 2.
5. CONGRATS, IT'S BACK TO NORMAL AND NOTHING ILLEGAL EVER HAPPENED, EVER.

Gynoid Talk + All Voicebanks + the crack dll: <https://pixeldrain.com/u/8ZnTnXnL>

HOW TO USE THE CRACK

1. DOWNLOAD EITHER FLOWER, THE MEIKAS, OR BOTH USING THE INSTALLERS.
2. GO TO

`C:\PROGRAM FILES (X86)\GYNOID\GYNOIDTALK`

AND REPLACE THE `AI.FRAMEWORK.LICENSE.DLL` FILE WITH THE ONE GIVEN HERE.

3. LAUNCH GYNOID TALK.

No cracks

- (check v6 tab)
 - DOES NOT WORK WITH 6.6.1
-

HOW TO DO MIKU NT2

People have been asking for it for a while and here it is!
(based on the original NT1 crack, it uses a modified version of the dll)

Instructions:

1. Install **Miku NT2** using her official installer from here:
[Hatsune Miku NT2 v1.0.1.0 \(Archive.org\)](#)
(or use the *Pixeldrain* link)

Place the **winmm.dll** in:

C:\Program Files\Crypton\CPI\Components\Piapro Studio NT2\CPM

- 2.
3. Open **Piapro Studio NT2** and click on "do activation".
 - Enter something like:
 - **Email:** abc@email.com
 - **Password:** 12345
4. Enjoy Miku NT2!

Note: Piapro Studio NT2 might ask you to sign in again after a while. Make sure you have **winmm.dll** in the folder before trying the sign-in process.

Winmm.dll download:

[Mediafire link](#)

(if you don't want to get viruses from it, just give up.)

OBSIDIAN 3.0 YUMEKEY

Tutorial: How to use OBSIDIAN 3.0

1. Install **Synthesizer V Studio Pro 1.11.2**

- Download installer:

[SVSTUDIO_PRO_1.11.2.exe](#)

2. Extract the **zip file** to the folder where **synthv-studio.exe** is located

- *(usually at **C:/Windows/Program Files/Synthesizer V Studio Pro**)*

3. Run **obsidian.exe** and Synthesizer V Studio Pro 1.11.2 will open

4. If you want to install voicebanks:

- Drag the **.svpk** file to **obsidian.exe**, **not** into Synthesizer V Studio directly. ◦

Voicebanks: [SynthV Singing Voice Databases](#)

Important note:

Before **Step 3**, you need to:

- Drag the **synthv-studio.exe** file into the **obsidian.exe** file so Obsidian can find the editor.
- Then right click **obsidian.exe** → *Create shortcut* and drag the shortcut into Desktop/Taskbar/Start menu/whatever you like.

HOW TO USE VOICEDRIVE

VoiceDrive is a plugin that allows you to create growls, gutturals, and powerful vocals. It doesn't require **PIAPRO Studio**, the synthesizer that contains it.

Steps

1. Download the plugin

- *(it's further down the document pages)*
-

AUDACITY Setup

2. Select the plugin, go to the **C: folder (or hard drive)** and find the **Audacity root folder**.

- Inside the Audacity folder, you'll find the **plugin** folder → place the **VoiceDrive file** there.

3. Open **Audacity**, go to **Effects**, and you'll find **VoiceDrive**.

- There you'll find the **intensity options** and the different types of effects!
-

FL STUDIO Setup

2. Open **FL Studio** and load the **VoiceDrive file** into the program.

- It will read it.

The most legendary SVP file is back:

放生(Fang Sheng) : <https://pixeldrain.com/u/WB3sVe62>

(svp isnt accurate to the video because i had to convert a vpr into svp) (DOES NOT COME WITH INSTRUMENTAL) Example: <https://www.youtube.com/watch?v=hfJeptcN5S0>

AR VOCALO WALK: https://archive.org/details/ar_vocalo_walk/marker_set2.png All
above from CoCoruu!!

Resetting the changelog as i lost track

2.1.0:

Added warning

Added bypassers

Added new stuff

Nothing else
